**Re: Northern Gateway Pipelines Application to the National Energy Board**

Please find enclosed the DVD of the Application by Northern Gateway Pipelines Limited Partnership to the National Energy Board for Certificates of Public Convenience and Necessity in respect of the Enbridge Northern Gateway Project (“the Project”). The Project consists of three components, comprised of an oil pipeline designed for an average annual throughput capacity of 83,400 m<sup>3</sup> (525,000 barrels) per day, a condensate pipeline designed with an average annual throughput capacity of 30,700 m<sup>3</sup> (193,000 barrels) per day, and terminal facilities (tankage and marine) at Kitimat, British Columbia.

If you have any questions, or require additional copies of the Application materials, please do not hesitate to contact me.

Yours truly,

A handwritten signature in black ink, appearing to read "Ken MacDonald". The signature is written in a cursive style with a large, stylized "K" and "M".
